

2023- In celebration of 150 years of excellence

Message from the Headmaster

Above: a sea of supporters for our rugby matches last weekend. The passion for Graeme is heartfelt and perceivable!

Graeme College recently released a Spectator Code of Conduct, pertaining to sports. Please re-visit this code on a regular basis, particularly on a Friday evening - to ensure that Saturday rugby (which seems to impact our emotions more than other sports) is competitive, yet peaceful and enjoyable.

A good friend of mine recently attended a conference in KwaZulu-Natal, where he was presented with a ‘Dad Code’ that he had to sign and commit to. It is well worth sharing with the Graeme community, for three reasons:

- we have fantastic Dads at Graeme College - and we need to celebrate them and encourage them and tell them how much we appreciate the positive choices they have made regarding being a Dad**
- we all need regular reminding about some of the key principles that speak to being a great Dad, such is its importance in the lives of our Leopards**
- there might well be boys in our community who may have lost their Dads, or have Dads who are not present in their lives and might require YOU to step in and be that Dad for them.**

Have a read and reflect on your performance as a Dad. Pat yourself on the back where necessary. Potentially you might need to step up a bit in certain areas too. Also, for those of us who are adults, if we recognise our own Dad in this “DAD CODE” below - let us take time to thank and appreciate him for the positive impact that he has had on our lives (we know it isn’t an easy job 😊).

DAD CODE

I, (insert your name), will strive to be a positive influence as a father or father figure in the life of my children.

I know that with my support and unconditional love they can grow up to be confident and responsible adults. I therefore commit to being actively present, to encourage and affirm my children to ensure their sense of belonging and self-worth.

For the benefit of my children, I will do my best to have a constructive and positive relationship with the mother of my children.

I value the opportunity as a Champion, to be part of a community with other fathers. I will support, encourage and challenge more men, fathers and father figures, to play a positive role in the lives of their family, children, and community, as I do in mine. I will speak out against gender-based violence and hold those in my circles accountable.

Blessings and strength to all the Dads in the Graeme Community.

Above: The Notch Kings for the week.

Below: Well done to Grade 7 boys who received Leopard Certificates for Term 1. A recipient needs to have worked to the best of his ability and have shown excellent behaviour and manners throughout the whole term. These certificates are tough to get! Well done boys and keep it up.

Morne Bodenstein in Grade 6 is our Graemian of the Week. Morne receives the award for his outstanding consistency, in every aspect of life. He is consistently cheerful, hard-working, respectful, interested and present! Clearly, a success waiting to happen. Well done Morne and keep it up.

Eric Griffin is our sportsman of the week. Eric has showed great determination to climb up the squash rankings at Graeme and has been a well rounded sportsman showing respect and commitment. Well done Eric.

Grade Rs

The Grade R class have been very busy learning all about phonics and letter recognition. They have been forming the letters using their bodies and also forming the letters through play dough and paint, to get the feeling of the letters. Through rhymes they have also learnt what the letters sound like.

Grade 10s

Although it doesn't seem like the most gripping experiment to do, watching ice melt is actually surprisingly informative and unexpected - as the grade 10 physical science boys recently found out. They were able to generate the data to accurately determine the boiling point of water.

Grade 11s

Grade 11 Life Science

Plants use energy from the sun to produce their own food, as glucose which can then be converted to starch. To prove that photosynthesis is taking place in a leaf the Grade 11s learned how to conduct a starch test, using iodine. They used this test to conduct a few experiments to assess what requirements are necessary for the process of photosynthesis to occur. They discovered that plants cannot photosynthesise without sunlight or carbon dioxide or chlorophyll.

The Graeme hostel boys have been baking up a storm for a school project at 6 am in the morning! Look at these delicious creations.

The Legacy Project

The Big Walk takes place in Term 1 and is an opportunity for the Grade 7 boys to raise funds for their Legacy Project. They are assisted by the Grade 4 - 6 boys but the idea is that they go out of their way to raise as much as possible. The funds are spent at the Junor Fields, where the boys leave something for future Graemians.

Previous Legacy Projects have included:

- the planting and watering of over 40 indigenous trees
- the construction of a brick stairway from Junor A to B
- the brick paving of the driveway entrance into Junor
- the refurbishment of the Junor changerooms and toilet facilities.

This year the boys managed to raise R28 000. Well done! We will give feedback in the coming weeks as to what project will be undertaken at Junor for this year's Legacy Project. undoubtedly an inspiration".

A shout-out to the Champions of this year's Big Walk. Grade 7 boys were asked to raise a minimum of R200. Some Leopards, however, pushed a lot harder than that and we acknowledge their efforts. Well done!

Mathew Babu matriculated from Graeme College in 2008. He maintained a high academic standard throughout school. He matriculated with academic honours. Mathew played in the steelband and was the 1st Cricket team scorer from 2006 to 2008. The role of scorer for the 1st Cricket side is seen as a tremendous honour. Mathew was awarded The Doug Meyer Trophy in recognition of service to Cricket at the school from 2006 to 2008.

After school, Mathew studied at the University of Cape Town from 2009 to 2012. He obtained an Electrical Engineering Degree with Honours.

Currently, Mathew lives in East London where he works as an Electrical Engineer for Eskom Holdings Ltd in the Distribution Division.

Mathew is a keen musician and maintains musical interests. He played the violin from Grade 4 to Grade 11! Mathew is, according to himself, a social runner. A social runner that has completed both the up and down runs of the Comrades Marathon!

As a testament to his character, he continues to serve the community wherever he is able to. He has been a ParkRun volunteer for many years and is integral to the functioning of his church.

Mathew is a kind-hearted man, who works extremely hard. He has a wonderful sense of humour and a passion for life.

We know that Mathew will continue to make progress in both his career and community. We are proud to have you as a Son of the Leopard!

We will be collecting knitting wool for the Lebone Centre.

Please send any wool to Ms White. Thank you!

LEBONE CENTRE

Jesse and Liam Koopman belong to the Community Outreach Portfolio. It is wonderful to see them adopting dogs from our local SPCA. The Koopman twins, along with their brother, Matthew, have been integral to the functioning of the Community Outreach Portfolio since its inception. They are strongly community oriented young men. We are proud of the Koopman brothers.

We are delighted to announce that Graeme College has purchased a full membership of the VIVE TEEN WELLNESS application, which will enable ALL our learners to have full access to the app. It is something that we have thoroughly investigated, and feel that this is a massive step in the right direction for the wellbeing of our all learners. We are excited that every learner will have safe space to learn more about mental wellness, and reach out for help if needed, in a number of ways.

VIVE TEEN WELLNESS is an Artificial Intelligence enabled digital platform and smartphone application that was built in South Africa. The first version was launched earlier in 2023, with several schools presently using the full suite of functionality. The schools and learners that have been using the platform in recent months have provided us with very valuable feedback that assisted us in planning the next phase of the roll-out.

During 2022 VIVE TEENS has been selected as a winner in the UpLink - World Economic Forum (WEF) Youth Mental Health Challenge where it has competed with over 120 other mental health companies from across the globe.

The platform is expected to launch internationally early in 2024, and as part of that process we are awarding South African schools the opportunity to gain from a locally built application and support the mental wellness of our children.

The Graeme College subscription starts from 1 September 2023, but we would like our learners to download the application in the meantime, and familiarise themselves with it by referring to the various videos and guides.
